

Men and women in Boston, and around the world, are having anal sex. A lot of it. And not all of us are using condoms. Learn how a rectal microbicide - the future of anal sex - could provide a safe and effective option to protect your booty against HIV and other STDs... with or without condoms.

THE FUTURE OF ANAL SEX: WHAT EVERY BOOTY SHOULD KNOW

Tuesday, October 24th, 2006, 6:00-8:00pm
Boston Public Library, Conference Room 56

SPEAKERS INCLUDE:

Jim Pickett, Director of Public Policy, AIDS Foundation of Chicago; founder of LifeLube.org and co-founder of the International Rectal Microbicide Working Group

Kenneth H. Mayer, M.D., Kenneth H. Mayer, M.D., Medical Research Director, The Fenway Institute at Fenway Community Health; Professor of Medicine & Community Health at Brown University and Director of the Brown University AIDS Program; Attending Physician, Infectious Disease Division, Miriam Hospital, Providence, Rhode Island.

Alex Carballo-Diéguez, Ph.D., Research Scientist, HIV Center for Clinical and Behavioral Studies, Columbia University; Associate Professor of Clinical Psychology (in Psychiatry), Columbia University

Moderated by: Emily Rigmont, Site Coordinator, Massachusetts for Microbicides/AIDS Action Committee
